

## Important for students

Selections criteria for students and staff are stipulated in agreement between the sending and receiving institutions.

They should be announced when the call for applications is launched and be properly advertised.

HOUSE

## ICM International Credit Mobility

## Who can apply and take part in an ICM project? How?

Taking part as an organisation: Only HEIs from Programme Countries may submit an application to manage a project for mobility between Programme and Partner Countries. Once the project is selected for funding, in order for the mobility to happen, the European HEI must sign an Interinstitutional agreement with a HEI in a Partner Country.

## Taking part as an individual

If a home University has been selected as winner in a bilateral project in the International Credit Mobility framework, all applicants should contact the international relations or project offices in their institutions to learn if any Erasmus+ mobility project is being implemented. They should receive information pertaining to the time of launching of individual applications, selection criteria, application time-frame, etc. The language requirements are specified in the inter-institutional agreement between the two universities.

## What does an ICM project do?

The activities supported in ICM are:

- Student mobility (short cycle/bachelor/master/doctoral).
- Staff mobility

## What is an International Credit Mobility project?

International credit mobility (ICM) supports the mobility of individuals in higher education institutions (HEIs), between Programme countries and Partner countries. Through ICM, European HEIs can set up mobility agreements with partners around the world to send and receive students and staff.
